My Portfolio

zaki.bouchebtoul97@gmail.com 

PROFESSIONAL SUMMARY

I graduated first in my high school technical division in mathematics, earning a baccalaureate with honors. I then obtained a bachelor's degree in Computer Science and am now specializing in Data Science and Artificial Intelligence at Abdelhamid Mehri University. As a Full-Stack Developer, I build interactive websites with custom animations, impactful mobile apps, and innovative management software. I am passionate about using HTML5, CSS3, JavaScript, and frameworks like React, Vue.js, and Flutter to create engaging, user-centered digital experiences. My goal is to make technology accessible and valuable, creating tools that truly improve people's lives.

PROFESSIONAL EXPERIENCE

Pharmacy Marketplace | 2024 – 2025

Built a full ecosystem for pharmacies, doctors, and labs with delivery integration, appointment scheduling, and dashboards for each service.

PDF File Sender | 2024 – 2025

Developed secure government software for encrypted file transfer, user management, and file history tracking.

MA Production Website | 2024 – 2025

Built an immersive and visually dynamic portfolio site for a well-known Algerian influencer.

Wiiw Phone App | 2024 – 2025

Developed a social marketplace app for phone trading with integrated chat and influencer-driven branding.

Chillhouse Website | 2024 – 2025

Built a futuristic, animated website for a bartending training agency with immersive user experiences.

Alkhazna SaaS | 2024 – 2025

Developed an online book marketplace with subscription plans, digital reading, and secure payment integration.

LinkedIn Automation Tool | 2024 – 2025

Created an AI-powered system that generates and schedules professional posts with text and image generation.

School Management System | 2024 – 2025

Built a platform to manage teachers, payments, and classes for early education centers in Algeria.

Clinical Management System | 2023 – 2024

Engineered a healthcare platform to manage patients, appointments, billing, and records efficiently.

GoViral Agency Website | 2023 – 2024

Designed and developed a modern, interactive website for GoViral agency in Qatar to showcase their creative services.

Leandra Isler Website | 2023 – 2024

Created a clean, accessible wellness site showcasing holistic health services with optimized UX design.

Databest Website | 2022 – 2023

Developed a high-interaction marketing site featuring smooth animations and dynamic case study layouts.

Zassistant App | 2021 – 2022

Created an AI-powered assistant with speech recognition, image understanding, and real-time advice on weather and news.
